choropleth_map.vg.json

Hi sir,

I have trouble with reading my CSV files with the git repository. Here's the link to my CSV file: <https://github.com/xluu0008/FIT3179/blob/main/homework9.csv>. Below is my code.

```
    "transform": [{
      "lookup": "properties.NAME",
      "from": {
        "data": {
          "url": "https://github.com/xluu0008/FIT3179/blob/main/homework9.csv"
        },
        "key": "Country",
        "fields": ["Vaccinations"]
      },
      "calculate": "datum.Vaccinations + 0.1", "as": "Vaccinations"
    }],
```

It works well with the local file path, but the map turned blank when I changed to the git path.

Thank you.

Regards,

Xinyi Lu

Hi Xinyi,

Click on Raw, and then use that raw data url:

<https://raw.githubusercontent.com/xluu0008/FIT3179/main/homework9.csv>

45 lines (45 sloc) 704 Bytes		Raw	Blame			
Q Search this file...						
1	Country	Vaccinations				
2	Afghanistan	6860				
3	Austria	6000				
4	Bahrain	198240				
5	Belarus	129				
6	Belgium	410				
7	Bulgaria	6330				
8	Canada	18540				

Cheers,

Kane
