## Concat Views: Unable to set width to div size #697

Hi,

For concat charts, when I set the width to "container", the chart goes outside of my div. Does anyone have a fix for that?

Thanks in advance,

Adam

Unfortunately, it will only align your main graph there, not the legend.

There is some advanced Javascript code to fix it though. Check my earthquake data example if you are interested: <https://github.com/KaneSec/earthquake>

Chers,

Kane

Hi Kane,

Thank you.

Cheers,

Adam
